MINING, BUSINESS AND STOCKS

YAMPA SMELTER ON BIG TONNAGE

New Converter Plant Will Be a Means of Greatly Reducing Costs.

WILL BE READY ABOUT JULY 1.

Company May Build Sampling Mill And Enter Custom Smelting Business.

In an interview with a representative of the Bingham Bulletin, General Manager Charles W. Sexman of the Yampa Smelting company said:

'We are now handling 800 tons of ore every day and hope to be handling 1,000 tons by the first of July. When one thinks of the fact that a little over a year ago the tonnage handled was less than 300 tons daily, and that not regularly, it is possible to see the strides that the smelter has taken. With the acquisition of the converter we will acquisition of the converter we will make our blister copper right here and instead of sending away matte averaging about 20 per cent copper, we will be shipping east to the refinery a product that will average 39 per cent copper. This will be a great saving from a freight standpoint, as well as eliminating the trouble we have had in having valley smelters handle our matte. The smelter is in excellent condition and the prospects are bright for it."

At the present time two blast and three reverberatory furnaces are in reverberatory furnaces are

three reverberatory furnaces are in commission.

In addition to the matte which is being resmelted in the blast furnaces which has accumulated on account of no place to send it for treatment, the company is receiving daily 600 tons of ore over the tram and is treating 100 tons of ore from the Centennial Eureka at Eureka, making a tonnage altogether of 800 tons a day.

When the converter is installed on br about July 1 an increased tonnage will be sent from the mine over the tram. According to the statements of the management the tram is able to transport about 1,400 tons in two shifts, so that no difficulty will be experienced in getting the ore down.

The company has had excellent luck fluring the past winter in getting the necessary supplies for the operation of the smelter as the bins have been enlarged, making it possible to store thousands of tons of coke, coal and lime rock. The storage bins have proven to be a good investment, doing away with the necessity of closing down the plant for lack of supplies.

It is said and upon very good au-

with the necessity of closing down the plant for lack of supplies.

It is said and upon very good authority that within the next year the Yampa people will build an ore sampler and will handle the ore of some of the smaller shippers in camp. This would be a big thing for the small mines, as it would do away with the freight charge and the expense it entails. With the acquisite vama as the result of the country. To those who have been away from the camp for a year the changes and improvements at this plant are nothing short of remarkable, and bespeak of the progressiveness of the manager, C. W. Saxman.

ON MINING EXCHANGE.

Seven Troughs Mining Active On the Open Board-Closing Quotations.

Seven Troughs created a good deal of interest during the early call of the mining exchange, particularly on the open board. Bullock seemed to be in favor and the stock was bought up to 14 cents a share on a buyer, umbus Consolidated displayed y

Boston Consolidated Concentrator Now Treating Eight Hundred Tons Daily.

NOW IN SERVICE

FOURTH SECTION

OUTPUT OF SULPHIDE MINE.

May Be Several Months Yet Before Garfield Plant is Running Up To Its Capacity.

The fourth section of the great concentrating mill of the Boston Consolidated Mining company at Garfield was placed in commission on Saturday night and according to information received at the offices of Mill Manager Bettles today, it is performing the function required of it in a highly satis-

actory manner.

The four sections of the mill now in use are taking care of approximately 800 tons of ore per day, the bulk of which comes from the tunnel workings of the mine at Bingham; while the sul-phide end of the mine is contributing 300 tons per day, which is shipped di-rect to the smelter.

rect to the smelter.

Mr. Bettles is anxious to get the balance of the plant under a full head of steam; but it will probably be several months yet before the mine is prepared to supply the ore. But since President Newhouse ordered a change in the mode of operation at Bingham, conditions are being rapidly arighted there.

BIG HILL COMPANY.

Statement Regarding Financial Condition Given Out.

Special Correspondence. Provo, May 16 .- Another one of the Provo, May 16.—Another one of the Knight mining companies that was not mentioned in the list as previously reported by the "News," is that of the Big Hill Mining company, the secretary gives out the facts as follows: That the company is incorporated for 500,000 shares, owning three full patented claims in East Tintic. There are in the treasury 38,231 shares and \$2,215.05 in cash. That work is progressing in the drift on the 200 foot level.

NEW NEVADA SMELTER.

Scheme to Build One Near Carson Will Go Through.

The Western Smelter Corporation, says the Reno Gazette, the newly organized and independent smelter which was incorporated April 6, is now a cer-

tainty.

The plant will be located five and one-half miles northeast of Carson, on the banks of Carson river, and on the site of the Old Merrimac & Brunswick plant, which was in operation in that section some 40 years ago, and which is still well remembered by

tion in that section some 40 years ago, and which is still well remembered to all the old-timers.

For a distance of from one-half to four miles from where the plant will be located the company has secured all the fluxes and iron. Enough copper and gold ores are on the dumps of nearby mines to start the smelter and keep it running for some time in the future, but as the company will operate one of the largest smelters in the west it will be able to handle all the ores shipped it.

ores shipped it.

The Western Smelters Corporation was incorporated for 10,000,000 shares.

The officers are: Jas. A. Yerington, president; P. B. Warner, vice president and general manager.

Mr. Werner left last evening for New York and other eastern cities in the interests of the corporation and upon his return the plant will be hastled through to completion. upon his return to the the through to completion.

Trinity United Cop., com., U. S. Smelter, com., U. S. Smelter, pfd., Utah, Con., ..., NOW IN PIOCHE. OIL AT MT. PLEASANT.

Anthony H. Godbe of this city and C. M. Work of Cincinnati, directors and extensive shareholders of the Ohio Kentucky at Ploche, left for the southern camp on Saturday night, where they will meet Samuel Newhouse, president of the company, when they will make a general inspection of the property.

Mr. Newhouse has never had occasion to visit Ploche before, and there is no doubt that he will be confronted with some pleasant surprises when he gets on the ground and sees the result of the campaign of development carried on under the direction of Mine Man-

of the campaign of development carried on under the direction of Mine Man-ager E. L. Godbe. No doubt he will visit the Prince Consolidated which has recently recorded one of the best strikes ever made in the famous old Nevada district.

Interesting Figures Released by U. S. Geological Survey.

Geological Survey.

Although the monetary disturbances in the last three months of 1907 are clearly reflected by the statistics of the coal-mining industry in Utah, the record made in the mines of the state during the first nine months of the year was sufficient to more than balance the effects of the depression when the coal production of 1907 is compared with that of preceding years. During 1906, which up to last year held the record as the most prosperous in the coal-mining industry of the state, the production of coal amounted to 1,772,551, short tons, valued at \$2,408,381. In 1907 the output reached a total of 1,947,607 short tons, having a spot value of \$2,959,769. The increase in production in the latter year amounted, therefore, to 9.88 per cent, and the increase in value to 22.89 percent. These statistics indicate that until the effects of the panic began to be felt in the latter part of the year the demand for Utah coal had been somewhat in excess of the supply and was accompanied by the higher prices natural under such conditions. The business was also most satisfactory to the product of the mines was handled by business was also most satisfactory to the operators in other ways, for the product of the mines was handled by the railroads in a gratifying manner, and there were but few complaints of shortage of car supply.

The coal mines of Utah gave em-

CONCENTRATES.

L. N. Morrison has gone to Nevada on a brief mining business trip.

E. L. Sheets, the broker, has returned from a trip to southern California. The mines of Butte produced 21,530,250 pounds of copper during the month of

General Manager Thomas Kearns of the Silver King Coalition Mines com-pany has returned from a trip east.

The receiver appointed several months ago to take charge of the properties of the Silver King Consolidated mine at Park City has been ordered discharged by the court. The affairs of the company are in good shape again and preparations have been about concluded to carry on a vigorous campaign of development.

TO PERMIT IDAHO TO RECLAIM 1,000,000 ACRES

ployment in 1907 to 2,203 men, who worked an average of 258 days, the average in 1906 having been 288 days for 1.572 men. The record for 1907 shows a distinct loss in the average efficiency of the mine workers, the production per man having decreased from 1,127.6 tons in 1906 to 884 tons in 1907. In 1905 the average production per man was 979 tons. The average daily production per man in Utah in 1907 was 3.43 tons, against 3.92 tons in 1906 and 2.96 tons in 1905.

Labor disturbances in the coal mines of Utah have been few during the last three years. In 1907 there was only one strike, and this one, which affected 148 men, lasted but four days. In 1905 and 1906 there were practically no labor disturbances. Washington, May 18.—The house to-day, under suspension of the rules, passed a bill allowing the state of Idaho to reclaim one million acres of land be-longing to the public domain.

LOCAL MARKETS.

There is a slight rise in prices of eggs in today's local market, owing to a scarcity that may be only temporary. Sturgeon are now on the fish counters, and selling well. Strawberries are scarce, as it is between the first and second crops. Those arriving now are of fine quality, but prices will range higher, rather than lower, for the remainder of the season, so wholesalers say. California cabbage has been commanding low prices, but Dilatush Bell Livestock Company Sues The damage case of the Dilatush, The damage case of the Dilatush, Bell Livestock company against the U. P. Railroad company was today transferred to the Third district court from the Weber county jurisdiction, the change being made at the instance of defendant.

The plaintiff is an Idaho concern, composed of C. N. Dilatuch, G. E. Bell and C. O. Stockslager. The allegation is made that Nov. 29, 1905, plaintiffs shipped 934 head of sheep over defendant's lines from Bliss, Ida., to Omaha, and that owing to the delay in transit and the negligence of defendant company, a loss of wholesalers say. California cabbage has been commanding low prices, but these will be raised. New potatees are at hand from Los Angeles, and Bermuda onions from Corpus Christi, Texas. The changes in the general run of prices are slight this week, and are as follows:

RETAIL. Timothy, per cwt...... \$0

| | the delay in transit and the negligence of defendant company, a loss of \$1,103 was sustained by the owners of the sheep. A similar case to the above is that of the Denning and Clark Live Stock company, against the O. S. L. and U. P. Railroad companies, which 'also will be heard in this county rather than in the Second district. The sum involved is considerably larger, being placed at \$11,418.60. Plaintiffs shipped 7,457 sheep from Spencer, Ida., to Omaha, the loading being done Oct. 2, 1997. It is alleged that the railroad company made long runs without unloading the sheep; that some of the animals died in transit; and that the remainder were in so bad a condition when the destination was reached that they had to be disposed of at a great sacrifice. | Timothy, per cwt. \$0 |

STOCKS STRONG AND ADVANCING

New York May 18 .- Opening prices of stocks today showed strong advances in nost instances and small declines only in a few of the metal stocks, Union Paific and Louisville & Nashville rose 1% and St. Paul, Northern Pacific, Chicago Great Western, Western Maryland and S. Steel preferred about a point. Northwestern sold at an advance of 4%.

The trading showed great animation and there were large transactions in various

The trading showed great animation and there were large transactions in various prominent stocks.

Certain stocks were realized on heally, bovught stocks and Union Pacific brought active leaders up a trifle higher than before. Standard stocks were the leaders of the rise, including Union Pacific and St. Paul.

Union Pacific continued to advance to 149% but showed growing isolation in its strength except for wide advances in dormant issues. At slight reactions the trading became dull until Southern Pacific began to rise at noon.

Bonds were strong.

The list was well sustained during the afternoon considering the realizations that the rise brough out. Pennsylvania loomed into prominence, but the well known stocks otherwise were not conspicuous, outside of Union Pacific, which touched 150%.

The Gould stocks became factors in the rise after midday, large blocks of Misrouri Pacific and other southwestern stocks being taken at rapidly improving prices. Southern Pacific rose to 89, but the general western list was little altered from the previous best prices.

The market closed strong and active with prices only slightly below the best. After Union Pacific had touched 150%, there was a general reaction under the weight of profit-taking sales. Recessions reached a point or more in Union Pacific and some other leaders. Money on call loaned at 1 per cent, Prices hardened at the last.

LIVESTOCK.

CHICAGO.

WOOL.

ST. LOUIS.

St. Louis. May 18.—Wool, steady. Territory mediums, 17@19; fine mediums, 15@16; fine, 11@14.

CHICAGO.

CHICAGO.

Chicago, May 18.—The wheat market today opened generally quiet but with a faith trade in the July option. Prices were inclined to be weak, however, because of a decline of one penny at Liverpool and good weather for the growing corn crop. Later prices rallied with corn. July wheat opened \(\frac{1}{2} \) \(\frac{1}{2} \) \(\frac{1}{2} \) to \(\frac{1}{2} \) \(\frac{1}{2} \

sold at 76, which is a new high record for the season.

July corn opened ½ to ¾ higher at 66½ to 66½ and sold at 66½ after touching 65½.

The oats market was dull and prices were steady. Good growing weather in the west was offset by the strength of corn. July oats opened ¼ lower at 46½ and sold at 46½.

The provisions market was firm because of the strength of corn and an advance of 5c in live hogs. July pork opened 7½ higher at 13.50. Lard was up 2½ @8.42½. Ribs were 2½ @5s higher at 73 @7.32½.

The wheat market became firm in the last half of the session, July selling up to 89½, the close was firm with July ½ @ ½ higher at 89½.

Corn—Selling by big holders caused an easier feeling in the latter part of the session, although May corn held firm, and closed at 76, which was the high point of the day, July corn closed easy and ¼ lower at 65%.

Corn—May, 76; July, 65%; Bect., 635%.

Corn—May, 76; July, 65%; Sept., 635%.

LEHI.

BURGLARS MAKE BIG HAUL. Broadbent & Sons' Store Robbed \$300 Worth of Jewelry.

Sa00 Worth of Jewelry.

Special Correspondence.

Lehi, Utah Co. May 18.—The staye of Broadbent & Sons company was autered by burglars some time on Saturday night or Sunday morning, who gaway with some \$300 or \$400 worth, watches, rings and other jewelry at some clothing. The robbery was find discovered until noon Sunday. Sheriff Harmon came up to investigate. The tools used to break into the store wer found in a vacant lot near the store. They had been stolen from the work shop of the sugar factory, a mile and a half away. Two men, who have been operating in the county and who have been hunted for by the officers for a week, are thought to be the culprise. They are evidently headed for Salt Lake as a piece of jewelry, a locket, was picked up on the road going north. The men suspected entered Broadbent's on Friday and purchased some handker-chiefs. One was tall, light of build and light complected, and the other was dark complected, heavy set and short of stature.

FUNERAL OF R. N. COOPER. FUNERAL OF R. N.
Funeral services over the remains
Robert N. Cooper, who died Thursday
heart disease, after a long illness, w
held from the Fourth ward meet
house Saturday afternoon. The spe
ers were George Austin, Peter Chris
France, Rishon, J. H. Gardner, Levi F. ferson Bishop J. H. Gardner, Levi Phi lips, Jas. F. Fyffe and Elisha Peck. Thouse was filled with sorrowing friend

ferson Bishop J. H. Gardner, Levi Phillips, Jas. F. Fyrfe and Ellisha Peck. The house was filled with sorrowing friends and relatives.

Mr. Cooper was born July 21, 1843, in Dundee, Scotland; was baptized at eight, and was ever true to the faith. In 1856 he married Ellizabeth Reed, who survives him. Six children were born to them of whom five are now living. He came to America in 1900.

The grammer grades of the public schools held their closing exercises. Thursday evening in the tabernacle and the primary grades at 10 a, m. yesterday. The programs given were pleasing and instructive.

Closing exercises of the Lehl high school will be held in the new tabernacle May 22.

Tuesday evening the debating team of the high school will contest with the Weber Stake academy team in the new tabernacle, the question being the "Galveston Plan of City Government."

On Wednesday, Thursday and Friday the Fourth ward Relief society held a bazar in the Bank building. Chicken dinners were served, and a large amount of donated articles were sold. About 3400 was realized.

Monday evening the choir will give a concert in the tabernacle for the benefit of the organ fund.

Mr. Felix Long, who fell from a ladder on May 8, and broke both arms is recovering nicely.

A number of the merchants are putting in cement walks in front of their places of business on Main street.

Mr. Len Racker has purchased part of Gay Whipple's lot on Main street on which he will build a home.

Mr. Olof Holmstead is building a home in the southern part of town.

All crops are booming and beet thinning will start next week. There is an excellent stand of beets.
